## Technical Skills

### **Programming Languages known:**

Java – Advanced; C & C++ - Intermediate; C#- Intermediate;

### **Projects:**

Java Mailing Application (JMA):

- Whilst I was learning Java, I undertook this project in which I had to create a GUI application with decent simplistic UI and practical use. It was basically an application where a user (Teacher) write in an email in the application and fill it with grades and send it to the students the application will change the information within the email catering it to each student and their earned grades.
- Numerous Classes had to be implemented such as super Classes, Inner Classes and JavaFx implementation.

## Work Experience

### **Sabic - Assistant Trainer**

**Jubail, Saudi Arabia**

August 2017 - Present

- Engage with students and maintain safety precautions.
- As the youngest assistant trainer, I had to conduct workshops about 3D printing and 3D designing.

### **FABLAB Dhahran – Facilitator**

**Dhahran, Saudi Arabia**

Sept2017-Dec2017

- Conduct workshops about 3D printing machines,3D designing and laser cutting machines in both Arabic and English.
- Administrate visitors within the lab and provide a tour in both Arabic and English.

### **Jarir Bookstore**

Salesman

**Dhahran, Saudi Arabia**

July2017 – Aug 2017

- Organized the busy shop floor where I performed regular stock maintenance and dealt with a variety of customers queries and complaints.

## Miscellaneous

- Khobar Diamond gym kickboxing club: joined 2015 and enjoy both physical training and skill development.
- Mining cryptocurrencies with GPUs and CPU to make profit and trade on different trading platforms.
- Online reselling: Developed an affinity for fashion and clothing, which has led me to set up my own online business selling the latest clothes and shoes.

## Languages

- Arabic - Native; English – Advanced Second Language; French - Beginner
